Academic Affairs Division Goal

Significant time and resources have been invested to assist faculty with creating better online/hybrid instructional techniques via the sessions and meetings with Chad Littlefield. The division goal provides faculty the flexibility to design and implement content that reflects the We and Me engagement strategies in their own discipline.

Faculty will select and follow through on one of the following items related to the We and Me Creating Engaging Content. Each item will be done via Zoom or a Dean-approved online alternative and recorded to document the presentation. A rubric outlining the expectations for the 5-Creating Engaging Content strategies will also be provided and used to rate the presentation.

Transition a Topic using the Creating Engagement Steps

- Select a topic from your course
- Redesign how to present the topic (transfer knowledge) to reflect the 5 Creating Engaging Content strategies
- Present the content /record the presentation
  - Use Zoom
  - Have ITAS bring mobile colab to your space
  - Come to the COLab and record your presentation

Cafeteria Style adoption

- ITAS will create a catalog of all Engagement Resources and Strategies
- Faculty "sign a contract" for implementing XXX number of Engagement resources and strategies into their classes over a period of X semesters
- Faculty provide a reflection piece on their success on implementing the selected resources/strategies
- Present the content /record the presentation
  - Use Zoom
  - Have ITAS bring mobile colab to your space and record a synchronous or asynchronous session
  - Come to the COLab and record your presentation

Full Course Transition using the Creating Engagement Steps

- Create a plan to transition your content to using Creating Engaging Content

- Identify what parts of your course(s) could be enhanced using the Creating Engaging content techniques
- Identify timeline for the plan
- Redesign how to present the topic (transfer knowledge) to reflect the 5 Creating Engaging Content strategies
- Present the content /record the presentation
    - Use Zoom
    - Have ITAS bring mobile colab to your space and record a synchronous or asynchronous session
    - Come to the COLab and record your presentation
