

## Read & Write

WSU Tech is excited to announce that we now have a campus-wide Read & Write license for students, faculty and staff.

Resources and links to user friendly videos and guides to help you download software on your device, can be found on the myWSUTech portal under the student tab and on the Student Resources tab in Blackboard.

Read & Write can be used on Chromebooks, Windows PCs, Macs, iPad and Android tablets and platforms including Google Chrome.

If you have questions, please feel free to contact Jennifer Stanyer with Disability Services.
